

## Town of Golden News: January 2022

### Help steer the future of transportation in Golden

Transportation is a big part of our daily lives, it affects how we move throughout town, how our community looks and feels, and how we interact with one another.

The Town of Golden is working to develop a community wide Transportation Plan to help shape the future of transportation in Golden over the next 20 years.

Residents are invited to provide their input through an online survey from January 26 to February 11 at [golden.ca/transportationplan](https://golden.ca/transportationplan). The purpose of the survey is to share the main components of the draft transportation plan and gather feedback on prioritization and implementation of the plan prior to compiling the final draft plan.

On January 26, the Town and Urban Systems hosted an online Public Information Session to provide information on the draft Transportation Plan, you can watch the recording on our website at [golden.ca/transportationplan](https://golden.ca/transportationplan).

We will also be hosting a virtual Public Discussion Session on Monday, February 7 at 5 p.m. via Zoom to provide information and answer questions related to the draft Transportation Plan and survey. Stay tuned for details.
